

How to Draw Telescope

YOU'LL NEED: Pencil (HB or #2) · Eraser · Drawing paper · Colored pencils, crayons, or markers · Black marker for outlines

STEP BY STEP

- 1 Start by drawing the basic outline shape for Telescope using light pencil strokes
- 2 Add the main features and proportions to your Telescope sketch
- 3 Draw the smaller details like eyes, patterns, or textures
- 4 Refine your lines and erase any guide marks you no longer need
- 5 Go over your final drawing with a black marker or dark pencil for clean outlines
- 6 Color in your Telescope using colored pencils, crayons, or markers to bring it to life

YOUR DRAWING SPACE

PRACTICE ZONE

■ Parikshet's Tip:

Here's something cool: try drawing Telescope in different sizes! Start small, then try a bigger version. You'll be surprised how different they look.
